

Programme Overview

ConnectEd Partnership's Secondary NQT Professional Development Network is designed to support NQTs in their first year in the profession. It provides a regular forum to network with other NQTs in the city and to engage in CPD activities which will support them to meet the Teachers' Standards. The network will be facilitated over 5 sessions across the year by Lisa Davies, Secondary Teaching School Lead and a team of Senior Leaders and SLEs from within Partnership schools.

The network is designed to be organic, personalised and cohesive in nature, each session will provide:

- A focus on teaching and learning to meet the Teachers' Standards
- The key to successful teaching—CPD Activities designed to build from the Initial Teacher Training programmes.
- Sharing of good practice—what is working well/issues to solve
- Time for reflection

What does the network involve?
